Skills

- **Languages**: Java, Python, C++, JavaScript, C, PHP, Kotlin.
- **Frameworks & Libraries**: HTML and CSS, Tailwind CSS, Node.js, Next.js, Express.js, React.js.
- **Tools & Platforms**: MySQL, Android Studio, MongoDB, GitHub, Figma, Canva.
- **Core CS Fundamentals**: DBMS, OS, CN, OOPs, DSA (Java).
- **Soft Skills**: Problem-Solving, Time Management, Leadership, Adaptability, Quick Learner.

Projects

LokYatra - Bus Tracking App | GitHub Jun '25 – Aug '25

- Architected a real-time tracking system using WebSockets for live bus location updates every second.
- Integrated GPS module to fetch coordinates from IoT device / mobile device and push them to the backend and Implemented Leaflet map rendering with custom map markers, route lines, and live movement animations.
- Addressed real-world transit visibility challenges by building a real-time location tracking platform for buses using live data streaming and map visualization.

Tech stack: MERN Stack, WebSockets, Leaflet Map, GPS Integration, Tailwind CSS.

Kartly - MERN E-Commerce Platform | GitHub Jun '25 – Jul '25

- Developed end-to-end MERN architecture, including frontend UI, backend APIs, and database modeling and implemented JWT-based authentication with role-based access (Admin, Seller, and Customer).
- Designed RESTful APIs for product listing, search, cart management, orders, and payments.
- Translated business requirements into a functional MERN-based application, demonstrating end-to-end product development from database design to user interaction.

Tech stack: React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS.

Training

Full Stack Development in React and Node – Skill Development (LPU) Jun '25 – Jul '25

- Learned core full-stack concepts using **Node.js and Express**, including routing, middleware, REST API creation, and server-side logic.
- Practiced **React fundamentals** such as components, props, state, hooks, event handling, and API integration to build interactive UIs.
- Applied full-stack skills in **hands-on mini-projects**, integrating frontend and backend, improving debugging, problem-solving, and deployment understanding.

Certificates

- Full Stack Development in React and Node – Skill Development (LPU) | **Link** Sep '25
- Java Programming – iamNeo | **Link** Jun '25
- Design Thinking – HP(Life|Foundation) | **Link** Jun '25
- Cloud Computing – NPTEL IIT Kharagpur | **Link** Apr '25
- The Bits and Bytes of Computer Networking – Google | **Link** Nov '24

Achievements

- Earned top badges on LeetCode and HackerRank, including a 4-star rating in Java. Nov '25
- Solved 300+ coding problems across platforms, including 150+ DSA-focused LeetCode problems. Nov '25
- Achieved 2nd position in Hackathon 101 for developing an innovative solution within limited time. Sep '25

Education

Lovely Professional University Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.97*** *Aug '23 – present*

Career Point World School Jhalamand, Jodhpur
Intermediate (PCM); ***Percentage: 72%*** *Apr '21 – Jul' 22*

Career Point World School Jhalamand, Jodhpur
Matriculation; ***Percentage: 87%*** *Apr '19 – Jul '20*
